How to Unlock Characters in Mario Kart Wii: A Complete Guide

Mario Kart Wii is more than just a racing game; it's a playground where you can experiment with different characters, each bringing unique strengths and quirks to the track. Whether you're a seasoned racer or a newcomer, knowing how to unlock characters can dramatically improve your gameplay and keep you engaged for hours. In this guide, we'll walk you through every method to unlock characters, from the classic "Buy a Ticket" system to hidden Easter eggs that even veteran players often miss. By the end of this article, you'll have a clear roadmap to unlock all the iconic faces that Mario Kart Wii has to offer.

Why Unlocking Characters Matters

Every character in Mario Kart Wii has distinct attributes—speed, acceleration, weight, handling, and traction—that affect how they perform on different tracks. Some are lightweight and nimble, perfect for tight corners, while others are heavy and powerful, ideal for straightaways and maintaining speed. Unlocking the full roster allows you to experiment with these traits and discover the perfect match for your racing style.

Beyond gameplay, unlocking characters also unlocks additional content such as new costumes, special items, and the ability to use them in multiplayer modes. It adds a layer of progression and satisfaction, giving you tangible goals to work toward in each game session.

The Official Unlocking System: Buy a Ticket

The most straightforward way to unlock characters is the "Buy a Ticket" system. Every time you finish a race in first place, you earn a ticket. Once you collect a certain number of tickets, you can purchase a character from the Character Store.

Step-by-Step: How to Earn Tickets

1. Choose a Race: Pick any single-player event—whether it's a short circuit or a long-distance race.
2. Finish First: You must finish the race in first place to receive a ticket. If you finish second or lower, you won't earn one.
3. Repeat: Continue racing until you accumulate enough tickets for your desired character.

Tickets are awarded regardless of the race length, but longer races provide a higher chance of winning due to more laps and fewer chances for a bad start.

Buying Characters from the Store

Once you have the required number of tickets, head to the Character Store located in the main menu. The store will display the characters you can purchase, each listed with the ticket cost. Select a character, confirm the purchase, and the character will be added to your roster.

Here's a quick reference for the ticket costs of the main unlockable characters:

- Yoshi – 5 tickets
- Donkey Kong – 8 tickets
- Bowser – 10 tickets

- Toad – 12 tickets
- Wario – 15 tickets
- Waluigi – 20 tickets
- Baby Mario – 25 tickets
- Baby Luigi – 30 tickets
- Baby Peach – 35 tickets
- Baby Daisy – 40 tickets

Tips for Maximizing Ticket Collection

- Choose the Right Tracks: Some tracks are more forgiving, allowing you to finish first more consistently.
- Use Power Items Wisely: Items like the Super Horn or the Blue Shell can help you maintain the lead.
- Practice in Time Trials: Time Trials give you a chance to refine your racing line and reduce mistakes.

Unlocking Characters Through Special Events

While the ticket system is the primary method, there are also special events and hidden challenges that can unlock characters or provide extra rewards. These events often require you to complete specific tasks within a certain time frame.

1. The “Speedster” Event

In this event, you must complete a set of races within a limited number of laps. Successfully finishing the event can grant you bonus tickets or even a direct character unlock.

2. The “Collector” Event

Here, you’re tasked with collecting a certain number of items or coins across multiple races. Completing this event can reward you with a special character costume that can be used in place of a regular character.

3. Seasonal Challenges

Mario Kart Wii occasionally hosts seasonal challenges (e.g., “Winter Racing” or “Summer Speed”). These challenges often provide unique rewards, including character unlocks if you meet the challenge criteria.

Hidden Easter Eggs: Unlock Characters Without Tickets

For players who enjoy a bit of mystery, there are several hidden ways to unlock characters that don’t involve the ticket system. These methods require specific actions, often tied to the game’s quirky Easter eggs.

1. The “Ghost” Race Trick

When you race against a ghost (a previous best run), you can use the same strategy to finish first. However, there’s a twist: if you finish first in a ghost race, you receive a ticket. This method is handy because ghost races often have fewer opponents, making it easier to secure the win.

2. The “Secret Track” Method

Some tracks contain hidden shortcuts or secret paths that, if discovered, can drastically reduce lap times. By mastering these shortcuts, you can finish races faster and increase your chances of earning tickets.

3. The “Item Swap” Trick

During a race, if you pick up a specific item (like the Lightning or the Boomerang), you can use it strategically to eliminate competitors. While not guaranteed, this tactic can help you secure a first-place finish and earn a ticket.

Character Unlocks via the “Mario Kart Wii: New Horizons” DLC

Although Mario Kart Wii’s original release doesn’t include downloadable content (DLC), the Nintendo Switch’s “Mario Kart 8 Deluxe” offers a “New Horizons” DLC that brings back classic characters, including those from Mario Kart Wii. By playing through the DLC, you can unlock characters that were exclusive to the Wii version.

How to Access New Horizons

1. Purchase the DLC from the Nintendo eShop.
2. Launch Mario Kart 8 Deluxe and navigate to the “Downloadable Content” menu.
3. Download the “New Horizons” pack and follow the in-game prompts to unlock characters.

While this method doesn’t unlock characters directly in Mario Kart Wii, it provides an alternate way to experience the same roster on a modern platform.
